Indicador / Indicator	Definição / Definition	Fonte / Source
Prevalência do HIV ¹ HIV Prevalence	Estimativa da população de adultos entre 15-49 anos sero-positivos Estimated percentage of adults 15-49 years old who are HIV positive	INE/MISAU, 1999
Pobreza Poverty	% Agregados Familiares em pobreza absoluta % of households living absolute poverty	MPF/IFPRI, 1998
TMA5 Under 5 mortality rate	Nº de mortes de crianças abaixo dos 5 anos por 100.000 nados vivos/ano Nº of children dying before the age of 5, per 100,000 live births, per year	IDS 1997
Subnutrição Nutrition	% de todas as crianças abaixo dos 3 anos cuja estatura é 2 ou mais vezes menor que a referência pop. Internacional da OMS % of children under 3 whose stature is two standard deviations or more below the international media of the reference population	IDS 1997
Educação Infantil Child Education	Proporção de crianças em idade escolar primária fora da escola % of children of school age who are not attending school	MINED 1997
Educação Feminina Women's education	Proporção de mulheres acima dos 6 anos que nunca foram à escola % of women over 6 years old who have never attended school	IDS 1997
Estimativas de órfãos Orphans	Estimativa da % de crianças abaixo dos 15 anos com mãe ou pais falecidos Estimated % of children under the age of 15 whose mother, or both of whose parents have died	dados de 1999

¹ Nota: Estimativas da prevalência do HIV são disponíveis apenas por regiões, devido à falta de dados provinciais. Estes dados, portanto, devem ser vistos apenas como estimativas gerais.

Note: Estimates of HIV prevalence are available only by region, due to the lack of provincial data. These figures should therefore be viewed only as general estimates.
